

Customer Notice – 2010/01 Issue of Revised Container Numbers – January 2010

Dear Customer

The service of IAEA self assessment Package Approval Authority that has previously been supplied by INS package approval section is to be carried out by the new LLW Repository Transport and Logistics Department. The LLW Repository are in the process of assigning new identifications to the fleet of low level waste transport and disposal containers.

As a user of our Container supply, I am writing to you for information on the current container stocks held on your site that will require a label change.

To ensure the LLW Repository issues out the correct number of labels to your site please complete the information requested and return to transportandlogistics@llwrsite.com at your earliest convenience. Note - this change will take effect on the 1st February 2010.

Old Container Number	New Container Number	How Many on customer site
2910C (1/2 height)	TC01	
2910B (1/2 height)	TC09	
2989 (1/3 height)	TC03	
3550 (3/4 height)	TC04	
2968 (2/3 height)	TC06	
2947B (WAMAC container)	TC07	
2947C (WAMAC container)	TC08	

Note – The TC05 (0075) label changes will be carried out by the Container Operator (Sellafield Ltd)..

Please note that in time all new Certificates of Approval and Packing and Handling Instructions will be available on the www.llwrsite.com/customers/transportandlogistics

Can you please circulate this information to the relevant people within your organisation.

Yours sincerely

Gillian Mckeown, Commercial Team Member, LLW Repository Ltd
